Nutritional Information

Texas Roadhouse is committed to providing accurate nutritional information to our guests. We have provided the Nutrition Calculator and Interactive Nutrition Menu below to help our guests make informed decisions about their orders. The nutritional information provided on this site is based on our standardized recipes and ingredients. However, because our Legendary Food is made from scratch and by hand, there may be slight differences between the nutritional information on this site and what you are actually served.

Food Allergens

At Texas Roadhouse, we pride ourselves on the Legendary Service we provide to all of our guests, especially those guests with food allergies. We have provided the Allergen Menu below so our guests can select menu items that do not contain certain ingredients that are common allergens. All of our Legendary Food, however, is made in shared cooking and preparation areas or may have been made in a facility with the allergen. As a result, cross-contact with food containing allergens is possible. If you inform us of your food allergy, we will take appropriate measures to prevent any cross-contact, but we cannot guarantee that any of our menu items are completely free of allergens.

*Texas Roadhouse cooks with 100% refined soybean oil. According to the FDA, highly refined oils, such as highly refined soybean, are not considered a major food allergen and therefore are not identified on this list.

Please let us know when ordering whether anyone in your party has a food allergy so we can inform our kitchen and take appropriate precautions. [\[Full Disclaimer\]](#)
